1 CMS Access & Author Login

Triport Logistics hosts the Content Management System on a high-speed administrative subdomain. Authors can securely authenticate from anywhere in the world.

Admin Dashboard URL

Navigate directly to <https://admin.triportlogistic.com/dashboard> in your web browser. Enter your registered email (alsaboer02@gmail.com) and password, then click **Login**.

2 The Author Dashboard & Posts List

Upon logging in, you arrive at the uncluttered Author Dashboard. In accordance with enterprise role-based security, content creators have focused access to two essential collections:

- **Posts:** Where you write, edit, preview, and publish logistics articles.
- **Media:** Where your photographs, diagrams, and cover images are stored on Cloudflare R2.

Fig 2.1: Author Workspace

Figure 2.1: Dedicated Author view displaying direct shortcuts to **Posts** and **Media** .

Inspecting Your Posts

Clicking into **Posts** displays the master directory of articles. You can check publication status, category classifications, and publication dates at a glance.

3 Creating a New Blog Article

To begin writing, click the **Create New** button located at the top-left of the Posts directory. The post creation canvas is arranged into two synchronized sections:

The screenshot shows the 'New Article Canvas' in the admin dashboard. The URL is `https://admin.triportlogistic.com/dashboard/collections/posts/create`. The page is titled '[Untitled]' and has a breadcrumb 'Posts / Create New'. The main content area is divided into two sections: 'Creating new Post' on the left and publishing/SEO controls on the right. The 'Creating new Post' section includes a 'Title' field, a 'Cover Image' section with 'Create New' and 'Choose from existing' buttons, an 'Excerpt' field, and a 'Content' field. The publishing/SEO controls section includes a 'Slug' field, a 'Status' dropdown (set to 'Draft'), a 'Published At' field, an 'Author' dropdown (set to 'alsabo0r02@gmail.com'), a 'Category' dropdown (set to 'Select a value'), a 'Meta Title' field, and a 'Meta Description' field. A 'Save' button is located at the top right of the 'Creating new Post' section.

Key Article Fields

Field	Requirement	Description & Author Guidelines
Title	Required	The main headline. Use actionable, informative phrases (e.g. "Top 5 Mistakes to Avoid in Dubai Air Cargo").
Slug	Automatic / Optional	Auto-generated from your title. Used in the URL (<code>/blog/your-slug</code>). Keep it concise.
Excerpt	Required	1 to 2 sentences (under 200 characters). Displayed on blog cards and search engine results.
Category	Required	Choose the relevant sector (e.g., <i>Air Freight</i> , <i>Sea Freight</i> , <i>Supply Chain</i>).
Author	Automatic	Defaults to your logged-in author profile (<code>alsabo0r02@gmail.com</code>).

4 Attaching Cover Images & Media Assets

All media uploaded to Triport Logistics is stored on **Cloudflare R2 Object Storage** and accelerated through media.triportlogistic.com. This ensures global caching with zero egress costs.

Selecting or Uploading an Image

In the **Cover Image** field, click **Choose from existing** to open the media drawer, or click **Create New** to upload a photo from your computer.

Cover Image Specifications

Dimensions:

1200 × 630 px

(16:9 ratio). File formats:

WebP, JPG, or PNG

. Keep file sizes below

300 KB

for fast mobile page loading. Always provide descriptive

Alt Text

for accessibility.

Figure 4.2: *The central Media collection where uploaded images, file sizes, and alt tags are organized.*

5 Rich Text Formatting & SEO Metadata

The post body is powered by the **Lexical Rich Text Editor**. It offers full support for structured headings, bullet points, blockquotes, code blocks, and hyperlinks.

The screenshot shows a web browser window with the URL `https://admin.triportlogistic.com/dashboard/collections/posts/create`. The page title is "Essential Guide to Sea Freight Container Shipping". The interface is for creating a new post, with a "Save" button in the top right corner.

Left Sidebar (Metadata):

- Title:** Essential Guide to Sea Freight Container Shipping
- Cover Image:** blog-2.jpg (72KB — 600x400 — image/jpeg)
- Excerpt:** Master the key logistics considerations, documentation, and cost factors when choosing ocean freight. (Brief summary for search snippets and blog cards (under 200 characters).)
- Content:** Container shipping represents over 90% of global trade volume. When planning an ocean freight shipment from Jebel Ali to South Asian or European ports, selecting the proper container class is critical to preventing damage and controlling freight expenditures. Key documentation required includes Bill of Lading (B/L), Commercial Invoice, Packing List, and Certificate of Origin.

Right Sidebar (SEO Metadata):

- Slug:** (Auto-generated from title if left empty.)
- Status:** Draft
- Published At:** (Auto-filled when published if left blank.)
- Author:** alsaboer02@gmail.com (Post author. Automatically assigned upon creation.)
- Category:** Select a value
- Meta Title:** (Custom SEO title tag (leave blank to use post title).)
- Meta Description:**

Search Engine Optimization (SEO)

Configuring SEO metadata guarantees that your article appears with an attractive title and description in Google search results and when shared on LinkedIn or WhatsApp.

Figure 5.2: *Setting Meta Title (50-60 chars) and Meta Description (140-160 chars) in the right sidebar.*

6 Publishing & Instant Live Updates

Triport Logistics utilizes **On-Demand ISR**. The instant you publish an article, the live website cache is immediately purged and regenerated. No Vercel deployment wait is required!

Publishing Steps:

1. Click the **Status** dropdown and switch from **Draft** to **Published**.
2. The **Published At** field will automatically record the current time if left blank (or pick a custom date).
3. Click the solid dark **Save** button in the top right.

Verifying on the Live Website

Visit <https://www.triportlogistic.com/blog>. Your post will appear immediately at the head of the feed with its Cover Image and Category badge.

Figure 6.2: *The live public blog feed showcasing published articles.*

7 Live Article Display & Author Checklist

Clicking the article card opens the dedicated reading view (`/blog/[slug]`). The page renders with the logistics hero banner, category pill, author attribution, publication date, and formatted content body.

Pre-Flight Author Checklist

Item	Verification Standard	Status
Title & Slug	Catchy, freight-focused headline; clean lowercase hyphenated slug.	✓ Checked
Excerpt	Under 200 characters; clear preview for cards and search engines.	✓ Checked
Category	Accurately assigned (Air Freight, Sea Freight, Road, Warehousing).	✓ Checked
Cover Image	Crisp 1200×630 image with descriptive Alt Text attached.	✓ Checked
SEO Tags	Meta Title (50-60 chars) and Meta Description (140-160 chars) set.	✓ Checked
Publish Status	Switched to Published ; verified live on <code>/blog/</code> .	✓ Checked

DO ✓

- Use H2 and H3 headings to break up long sections.
- Format document requirements into bullet points.
- Keep image file sizes under 300 KB (WebP preferred).
- Check the live article on mobile after publishing.

DON'T ✗

- Don't upload multi-megabyte uncompressed photos.
- Don't leave the Excerpt empty (it breaks search cards).
- Don't forget to assign a Category.
- Don't use H1 headings inside the article body.
